

Maths

Victorian School

Look at this beautiful number chart. This was used as a way to memorise additions e.g. 3 and 1 are 4; 3 and 2 are 5.

Children would have spoken these out loud over and over again. It sounds like a boring way to learn maths, but the beautiful pictures from nursery rhymes and fairy tales might have made it more interesting!

Which of these can you spot in the pictures?

Little Red Riding Hood

The Cow Jumped Over the Moon

Mother Goose

Jack and the Beanstalk

Can you name any other stories shown?

Make a rainbow Mansion Mouse while practising your multiplication skills.
